*Dicentra Spectabilis*

(Bleeding Heart or Seal Flower)

An old-fashioned favorite; its long racemes of graceful heart-shaped pink flowers are always attractive; it is used also for forcing in the house, and is perfectly at home in any part of the hardy border, and especially valuable for planting in clumps in shady places where other flowers do not do well. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Large-Flowered Pentstemon **Garnet**

**A Beautiful All-Summer Blooming
Cut Flower**

This is the first of a new strain of hardy large-flowering Pentstemons. Heretofore, the only large-flowering hybrid Pentstemons available were the Gloxinoides which are not hardy in the North. Pentstemon Garnet is of spreading habit and produces a succession of bloom from June until stopped by frost. The gloxinia-like flowers are a rich garnet color, and are gracefully placed on stems 12 to 18 inches tall. The plants have from six to a dozen spikes continually throughout its flowering season. The flowers are excellent for cutting and last a week or more in water. This new large-flowered variety has been growing in our nursery and several test gardens for 3 years. It has been left unprotected during three winters without showing any signs of frost damage. Three, \$1.50; doz., \$4.50; 100, \$30.00.

Pentstemon, Garnet

Giant September Glory

Giant White Spire

Giant Liatris

September Glory. A giant 6-foot spike solidly covered with purple flowers from top to bottom. The flowers, unlike the common variety, come into bloom all at the same time, creating a marvelous effect. A splendid improvement over the old variety. Late flowering, September. Three, \$1.50; doz., \$4.50; 100, \$30.00.

White Spire. A magnificent pure white Gayfeather. Just as tall as the September Glory from which this variety is a sport. Superb for a bold effect in the garden as well as a stunning flower for cutting. Each, 65c; doz., \$6.50.

Carnation **Crimson King**

Here is an outstanding hardy Carnation for the garden, flowering throughout spring, summer, and fall, not shyly but with remarkable freedom. Dazzling crimson flowers on stiff, stocky stems, long enough for cutting. It is exceptionally hardy growing anywhere. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Hardy Carnation,
Crimson King

Buddleia, Fortune

New Constant Flowering Viola, Maggie Mott

This variety is used by the hundreds of thousands in Europe for bedding or massing along borders. The flowers are a lovely pure pale blue and beautifully proportioned. It is no wonder it is so popular. It is a good strong grower and free bloomer and does not require undue care or attention. In bloom all spring, summer and fall. You will enjoy Maggie Mott in your garden. Three, \$1.75; doz., \$4.50; 100, \$30.00.

Viola, Maggie Mott

New Blue Buddleia Fortune

Plant Patent No. 206

Most everyone is familiar with the Butterfly Bush. All of them had defects and many shortcomings. In Buddleia Fortune we believe we come very close to perfection. The bush or shrub is of very neat habit, about four feet high and four feet across. It possesses none of the undesirable wild and rough growing characteristics of the older varieties. The color is pure lilac with a brilliant orange eye in each tiny flower, thousands of which make up the sprays which are from 12 to 18 inches long. The flowers are produced in superabundance throughout the entire summer and autumn until stopped by frost. The flower sprays, instead of being flat on one side as in the old varieties, are fully round and in bloom from base to tip practically at the same time. The blooms of the older varieties are faded and brown at the bottom of the spray before the tips are in bloom. The flowers may be cut with stem 2 to 3 feet long and last in water for several days, which is not possible with older kinds. Buddleia Fortune is a grand cut flower as well as a fine plant for the flower garden. Each, 75c; doz., \$7.50.

Giant Stokes' Aster Blue Moon

The immense light blue disc-like flowers are 5 to 6 inches in diameter, growing on stiff 12- to 18-inch stems. In the foreground of the border they make a picture not easily duplicated. Stokesia, Blue Moon, is a vigorous-growing and free-flowering variety of exceptional merit and distinction. It is perfectly hardy and has no insects bothering it. It is of easy culture and flowers throughout the summer and autumn until stopped by hard frosts. A most worthwhile addition to the hardy plant garden. Three, \$1.50; doz., \$4.50; 100, \$30.00.

Giant Stokes' Aster, Blue Moon

Hardy Gypsophila (Baby's Breath)

Pacifica Flore Pleno (Double Pink Baby's Breath). This double-flowered form was found in our nursery among a bed of the single variety 4 years ago. We have propagated it and carefully watched its habit during these years. The pale pink blossoms are very dainty and grow in great open foamy heads, ideal for cutting. They work in even more charmingly between cut flowers than the other Baby's Breath. The pink shade is delicate during warm weather. In the autumn it deepens considerably. A charming plant with a great future for the florist as well as the home garden. Each, 75c; doz., \$7.50.

Gypsophila, Pacifica Flore Pleno

Bristol Fairy. A wonderful new introduction. Bristol Fairy produces large panicles of double, white flowers, in which the individual blossom is larger, and of the purest white. It also flowers continuously throughout the summer. Three, \$1.50; doz., \$4.50; 100, \$30.00.

Paniculata compacta. When in bloom in August and September it forms a symmetrical mass 2 to 3 feet in height and as much through, of minute white flowers having a beautiful gauze-like appearance. Three, 95c; doz., \$3.00; 100, \$18.00.

Paniculata flore pleno. A light and graceful cut flower, compatible with all others, no matter of what shape or color; masses of minute double white flowers. Plants offered are grafted, and we guarantee all plants to be double. Three, \$1.50; doz., \$4.50; 100, \$30.00.

Repens Bodgeri. A new dwarf double-flowering Gypsophila, reaching a height of about 2 feet. It blooms at least 2 weeks earlier than any other double-flowering form, which makes it particularly desirable, either used for garden display or for cutting. Very neat habit. Three, \$1.50; doz., \$4.50; 100, \$30.00.

Repens, Rosy Veil. A new dwarf pink double-flowering Gypsophila. Established plants reach a height of two feet and are in bloom throughout the summer and fall. They start blooming two weeks earlier than the tall double Gypsophila and continue later in the season. This makes them particularly valuable for cutting. The foliage also is more graceful and a fine blue-green. Excellent for in front of the border. It will not crowd out other plants. Three, \$1.50; doz., \$4.50; 100, \$30.00.

Anthemis, Moonlight

Anthemis

Moonlight

Perfect habit of growth. A fine plant for the border, about 2½ feet tall. In bloom all summer. It is not a rampant grower as is the old variety, Tinctoria, and does not spread all over the place at the expense of other plants. The pale yellow flowers are about 2½ inches in diameter and are excellent for cutting. Three, \$1.50; doz., \$4.50; 100, \$30.00.

Sweet Scented Violets

Double Russian. Perfectly hardy anywhere, producing double, sweet scented flowers in abundance. A splendid variety for that troublesome shady place. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Odorata Semperflorens (Sweet Scented Perpetual Flowering). Here we have what may be termed a "tireless" sweet scented Violet. It never stops blooming. While the flowers are not large you can always pick a little nose-gay from a half dozen plants. The fragrance leaves nothing to be desired even though the blossoms are small, and this perpetual flowering Violet is a good grower, and if you plant it in a favorable location will soon become a big clump. Does well in light shade. Perfectly hardy. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Prince of Wales. Rich, deep purple. Gloriously sweet scented. The best of the single hardy sweet scented Violets. Does excellently in shade. Three, 95c; doz., \$3.00; 100, \$18.00.

Rosina. Producing not only in spring but again in late autumn, quantities of dainty, deliciously fragrant, pink or old rose flowers. Extremely useful for bordering or as a ground cover in half shade or full sun. Three, \$1.40; Doz., \$4.00; 100, \$25.00.

The Czar White. This is one of the most popular of white Violets, prolific in bloom and good large pure white flowers on long stems. Very fragrant. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Double Russian Violet

Atlanta

Atlanta Flowers as Large as Hydrangeas

(Plant Patent No. 329.) This fine new Phlox was really selected by visitors to our nursery. Everyone who saw it remarked about its extraordinarily large flower heads which reminded them of the flowers of *Hydrangea Paniculata*. The individual florets are white, beautifully shaded pale blue. The eye is a deep blue. Flower heads are immense in size and carried on stiff $2\frac{1}{2}$ - to 3-foot stems. As with *Columbia*, there develop from the leaf joints secondary flower heads, continuing to bloom for several weeks after the main flower head has faded. Foliage is clean, and the entire plant impresses one with its vigor. The delicate tints and shades develop best when planted in not too strong sunlight. It is difficult to describe Atlanta, but we are sure you will welcome this lovely new Phlox among your most prized flowers. Three, \$1.50; doz., \$4.50.

Mary Louise

As White as Carrara Marble

Pure white heads of unusually large size, reminding one of Carrara marble, the individual flowers are twice as big as other white Phlox. A perfectly beautiful variety; unquestionably the best white to date. The favorite in English gardens. It is a good grower with clean foliage and an unusually prolific bloomer. Of medium height. Three, \$1.10; doz., \$3.30; 100, \$20.00.

Phlox Suffruticosa

Miss Lingard. Has beautiful, long, shiny green foliage and is absolutely free from any disease. It flowers from early June until October, with large heads of white flowers with faint pink shading in center. It is the best early white Phlox known. Three, \$1.10; doz., \$3.30; 100, \$20.00.

Miss Verboom. This, in fact, is the rose-magenta form of Miss Lingard. Habit and foliage are the same; flowers just as early in June. Splendid when planted next to Poppy, Mrs. Perry and *Hemerocallis*, Flava. Three, \$1.10; doz., \$3.30; 100, \$20.00.

Africa. Brilliant carmine-red with blood-red eye. Well shaped flower heads composed of large florets. Good strong stem and not subject to mildew. Three, 95c; doz., \$3.00; 100, \$18.00.

Antonin Mercier. A delicate lilac-blue; free-flowering variety of medium height and fairly free from red spider. During prolonged hot weather the color fades to a very pale lilac; in light shade, however, the coloring is constant. Three, 95c; doz., \$3.00; 100, \$18.00.

Cheerfulness. Very vigorous grower with much branched panicles of large salmon-orange flowers which show a very small crimson eye. Of importance is the fact that the color keeps well in bright sunlight, also it is a very late flowering variety prolonging the season several weeks. Height about 3 feet. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Daily Sketch. Extra large trusses—large and individual florets. Color is light salmon-pink with crimson-rose eye. Viewed from a short distance, the effect is a magnificent rose Phlox. Daily Sketch is an outstanding variety. Although introduced several years ago, it is practically unknown. It is robust and rugged in growth and about $3\frac{1}{2}$ feet high. Three, \$1.40; doz., \$4.00; 100, \$25.00.

E. I. Farrington. Splendid variety of erect habit and vigorous growth. Bright salmon-pink, shading to soft pink. Always attractive and good for cutting. Three, 95c; doz., \$3.00; 100, \$18.00.

Enchantress. Bright salmon-pink with dark eye, resembling Elizabeth Campbell in color, but of much stronger growth and rich green, glossy foliage. Three, \$1.10; doz., \$3.30; 100, \$20.00.

Ethel Pritchard. A delightful French mauve colored Phlox, which, if seen on a cloudy day, looks almost as pale blue as our native Phlox *Divaricata*. It is a strong grower. Three, \$1.10; doz., \$3.30; 100, \$20.00.

Fuerbrand (Fireglow). Brilliant orange-scarlet. Sometimes almost vermilion. Flowers very freely and blooms are produced in quantity throughout the entire season. Of medium height. Three, 95c; doz., \$3.00; 100, \$18.00.

George Stipp. A new variety of great merit. Deep glowing salmon with shaded lighter eye; very outstanding and one of the recent salmon Phlox introductions. Does not fade. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Mary Louise

Phlox

Harvest Fire. Salmon-orange flower heads on a vigorous plant with good clean, disease-resistant foliage. The flower heads are large as well as the individual flowers. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Leo Schlageter. Seldom has one seen a shade of red such as produced by this fine new Phlox. Its brilliant scarlet blooms seem to glow with fire. The impression is heightened by the fact that there seems to be a decided orange cast to the blooms. Of splendid habit, about 3 feet high with full rich heads of bloom; early. The best red Phlox. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Mia Ruys. A very dwarf variety not always found true in most nurseries. It does not grow over 12 to 15 inches high and produces pure snow-white large heads of flowers. Very similar to Mary Louise but dwarfer and not so pure white nor as large a flower. Three, \$1.10; doz., \$3.30; 100, \$20.00.

Mrs. Jenkins (Independence). Pure white, late flowering, grows very fast and is of medium height. A splendid sort for planting in masses. Three, 95c; doz., \$3.00; 100, \$18.00.

P. D. Williams. Enormous flowers in pyramidal trusses. Soft rose-pink with darker center. Buds and the reverse of petals are rosy red. Grows compactly and retains its color unmarred and unbleached through the entire summer and fall. The individual florets of P. D. Williams are larger than in any other variety, making the flower most attractive and outstanding. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Rheinlander. A splendid old-time variety of good growing quality, and excellent habit. Flower bears large; good strong stems; color beautiful salmon-pink. Three 95c; doz., \$3.00; 100, \$18.00.

Rijnstroom. A good strong grower, producing an abundance of stems, each one topped with heavy trusses of flowers of a lively rose-pink, much like the color of the Paul Neyron rose. Three, 95c; doz., \$3.00; 100, \$18.00.

Rosea Superba. Bold large heads of light lilac-pink. A robust grower of excellent habit. Makes a vigorous clump. Does well where other Phlox fail. Three, \$1.10; doz., \$3.30; 100, \$20.00.

Columbia

Salmon Beauty. Rich salmon-pink with white eye. There are many Phlox of this general color, but when all is said and done, we believe Salmon Beauty is one of the first on the list in this shade. Three, \$1.40; doz., \$4.00; 100, \$25.00.

San Antonio. One of the most vivid and brilliant Phlox in our entire collection. The flaming heads are carmine shaded plum-red, and planted next to any good white Phlox create an astoundingly brilliant picture. The finest of this color. Good clean grower and flowers do not discolor in the hottest sun. Grows about 36 inches high. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Von Lassburg. A splendid midseason, tall, white variety. Trusses large and stems good, very free flowering. Rather tall, fine for the back of the border. Three, 95c; doz., \$3.00; 100, \$18.00.

Widar. The violet florets have a clear white eye which creates a most unusual effect. Of medium height and good habit. Three, 95c; doz., \$3.00; 100, \$18.00.

New Phlox, Augusta

(Plant Patent No. 252)

The new Augusta is not only the most brilliant, the most intense, and most sparkling cherry-red Phlox in existence, but the color remains perfect under all weather conditions. The plant grows 2½ feet tall and the sturdy stem and the firm foliage colored rich bronzy green. Vivid and beautiful Augusta will supersede all the older Phlox of similar color. 3 for \$1.50; \$4.50 per doz.

New Phlox, Columbia

(Plant Patent No. 118)

The color is an exquisite cameo-pink with a faint blue eye and produces an effect never before seen in Phlox. The clearness of tone is remarkable, and the marvelous brilliant color does not fade into purple as the flower ages. The flower crop is immense. A well-grown plant will produce 15 flower spikes 2½ feet high. Unquestionably the finest of the pink Phlox, and probably the finest of all Phlox. 45c each; 3 for \$1.10; \$3.30 per doz.

Augusta

Veronica

Blue Spires. Far superior to the well-known *Spicata*. Growing two feet high, its lovely deep blue spikes show up well in the hardy border. The foliage is clean and plant is of bushy, upright habit and flowers throughout the early summer. A fine new introduction of real merit, and a plant which does withstand hot and dry weather without suffering. Altogether a very worth-while border plant. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Erica. A heather-like *Speedwell* with delicate pink flowers. June-July. 8 to 12 inches. Three, \$1.10; doz., \$3.30; 100, \$20.00.

Longifolia subsessilis. 2 feet. July to September. One of the handsomest blue-flowering plants. Perfectly hardy and increases in strength and beauty each year. Spikes completely studded with beautiful blue flowers; fine for cutting and one of the best plants for the hardy border. Three, \$1.40; doz., \$4.00; 100, \$25.00.

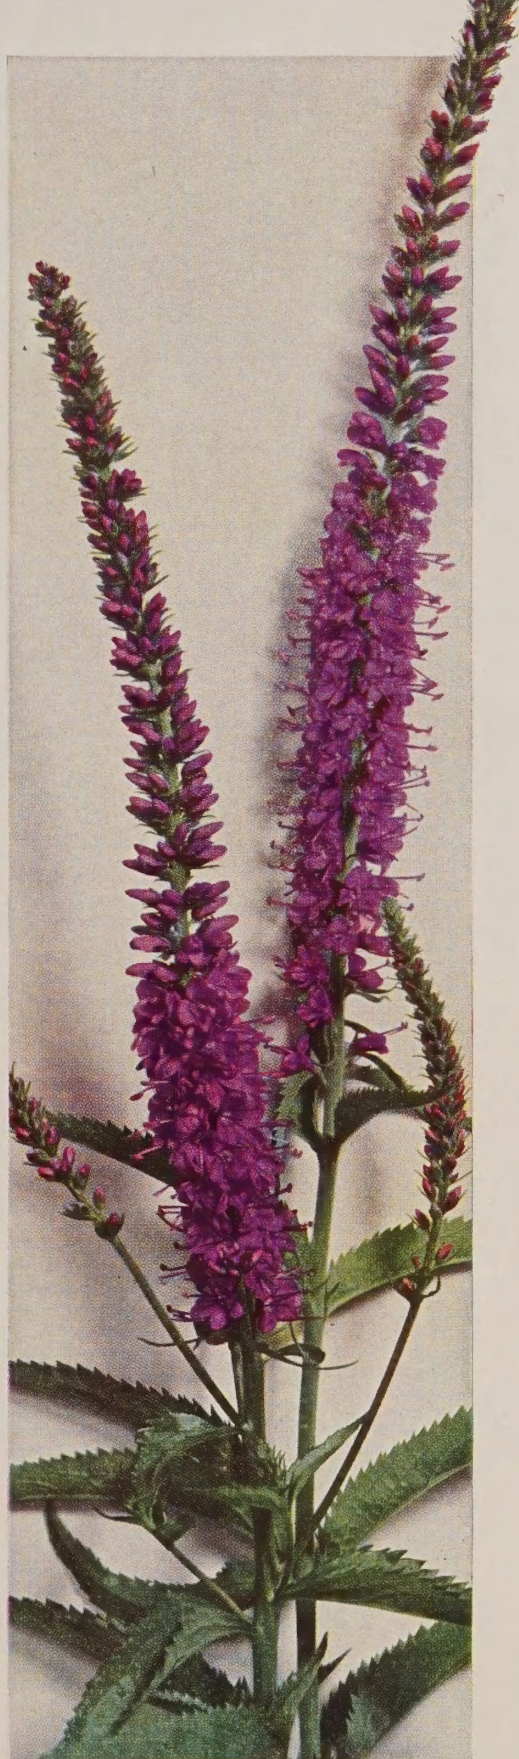

Rupestris, Heavenly Blue. The same habit as *Rupestris* or *Rupestris alba*; prostrate; does well in full sun or light shade. Lovely in the rockery or at base of shrubbery. Completely covered with heavenly blue flowers in late May or early June. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Spicata. Long spikes of violet-blue flowers all summer; a very fine variety for the middle of the hardy border. For best results lift and divide every three years and fertilize well with bone meal. Plant grows about 24 inches tall. Three, 95c; doz., \$3.00; 100, \$18.00.

Spicata alba. Long spikes of snowy white flowers. Three, 95c; doz., \$3.00; 100, \$18.00.

Spicata rubra. Rather misnamed because the flowers are a pinkish lavender and not red tinted as the name implies. Habit of plant is fine, erect and stately as well as very free-flowering. Excellent for in front of the border. Three, \$1.40; doz., \$4.00; 100, \$25.00.

True Blue. Literally covers itself with blossoms of intense blue. 12 inches. June-July flowering. Three, \$1.10; doz., \$3.30; 100, \$20.00.

Veronica, Blue Spires

Trollius Ledebouri

Trollius

Choice Mixed Colors. Colors range from pale yellow to deep orange. A wide variety of shades and forms. Three, \$1.10; doz., \$3.30; 100, \$20.00.

Ledebouri. A magnificent variety of very deep orange color. Its great merit lies in its late flowering propensities from June till October. Three, \$1.50; doz., \$4.50; 100, \$30.00.

Cushion Chrysanthemums

A group of low-growing 'Mums, forming mounds of blooms, reminding one of the old-fashioned azalea. The plants grow about 10 to 12 inches high and spread 2 feet or more. They flower quite early. All during September they are literally covered with hundreds of flowers which last over a long period. With a little straw protection, the plants are quite hardy. All are descendants of the Chrysanthemum, Amelia, more often called Pink Cushion Mum.

Pink Cushion. Light pink flowers by the hundreds in mounds 2 feet across. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Bronze Cushion. A bronze form of the above with deep bronze flowers, turning to bronzy, coppery yellow. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Red Cushion. Deep bronzy red, good compact habit. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Rose Cushion. Rose-pink, deeper in color than Pink Cushion, but same habit. Three, \$1.40; doz., \$4.00; 100, \$25.00.

White Cushion. At opening, show a delicate pink, turning pure white as flower develops. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Yellow Cushion. Pure golden yellow, very brilliant, hundreds of blooms. Early flowering and long lasting. Three, \$1.40; doz., \$4.00; 100, \$25.00. 1 each of the above 6 varieties for \$2.25

New Cushion Chrysanthemum

Little Bob. A charming, low-growing garden Chrysanthemum from England which will surely be grown by everyone interested in 'Mums. The plant spreads to about 24 inches in diameter and develops into a perfectly symmetrical mound. In early autumn hundreds of small mahogany-bronze double button-like flowers appear on short stiff, wire-like stems. When in bloom the plant is completely covered with flowers. In appearance, far superior to the well-known Cushion 'Mums. We are sure you will like this new introduction. Each, 65c; 3 for \$1.75; doz., \$6.50.

Cushion Chrysanthemum, Little Bob

New Heliopsis Incomparabilis

New Heliopsis

Scabra incomparabilis. Admitted to be one of the finest border perennials introduced in recent years. Received Award of Merit in England, 1933. The flowers are a rich golden yellow, nearly double, and over three inches in diameter. It is of easy growth, attaining a height of about three feet, and is in flower continuously from July to autumn. Each, 65c; three, \$1.75; doz., \$6.50.

New Hybrid Tritomas

Parmentier. A fine compact coral-pink flower on stems about 30 inches high. Distinct and lively color, blending well with other flowers. Each, 50c; three, \$1.40; doz., \$4.50.

Old Ivory. Makes a long flower on 36- to 40-inch stems. The creamy white effect is fine. Plant has bold habit and is excellent for the garden. Each, 50c; three, \$1.40; doz., \$4.50.

Pres. MacMahon. Graceful open flower, lower half salmon-pink, top brilliant fiery salmon-red, most unusual. Fine for cutting as well as in the garden. Each, 50c; three, \$1.40; doz., \$4.50.

Queen Wilhelmina. Dainty and exceedingly free flowering. The small graceful open white flowers are produced in great quantities. A fine plant for the garden as well as cutting. 2 feet high. Each, 50c; three, \$1.40; doz., \$4.50.

Salmon Beauty. The glittering legion-red flowers fairly shine in the sunlight so brilliant they are. They are quite open and graceful on stems 24 inches high. Good for cutting as well as garden use. Each, 50c; three, \$1.40; doz., \$4.50.

Sulphur White. A fine, bold, cream-colored flower, well formed and shapely; one of the best in this shade. Very free flowering. Stems are strong, about 3 feet high. Each, 50c; three, \$1.40; doz., \$4.50.

Vanilla. The graceful flower heads are a clear straw-yellow, a shade so difficult to get in flowers. While rich in color it is cool, and makes a fine effect in the garden. Each, 50c; three, \$1.40; doz., \$4.50.

White Chief. Top of flower palest yellow, lower half ivory-white. A bold, tall grower, 36 to 40 inches. Makes a conspicuous accent in the border. Each, 50c; three, \$1.40; doz., \$4.50.

Mixed Early Tritomas. This mixture contains all the above varieties as well as several fine seedlings we did not name because additional varieties would have made this section too long. It contains a good color range and is priced to enable purchases of 6 plants or more. Six, \$2.25; doz., \$4.00; 100, \$25.00.

Hardy Asters

For a beautiful display in the fall few plants equal the hardy Aster. Here are four of the best:

Amethyst. Purple-blue Aster. There is nothing like it. Flowers are produced by the hundred on the fine upright stems about three feet high. In comparing this variety with others, Amethyst is unquestionably the best one in our collection of this shade. Three, \$1.50; doz., \$4.50; 100, \$30.00.

Climax. One of the best and showiest, with large, pyramidal spikes of large, light lavender-blue flowers; very free. 5 feet. Excellent as a cut flower. Three, 95c; doz., \$3.00; 100, \$18.00.

Royal Blue. Graceful flowers 2½ inches in diameter arranged loosely in branching panicles of particularly pleasing blue-tinted lavender; 3½ feet high. Three, \$1.40; doz., \$4.00; 100, \$25.00.

Sunset. A glorious sunset-pink. Good habit and extremely free flowering. One of the best new pink sorts. Grows about 36 inches tall. Three, \$1.50; doz., \$4.50; 100, \$30.00.

Chrysanthemum, Clara Curtis

The hundreds of single salmon-pink daisy-like flowers are about 3 inches in diameter and are at their best in August and early September. They are well arranged on short, much-branched stems not over 12 to 18 inches high in such numbers that the plants look like small mounds of pink. Clara Curtis is perfectly hardy and blooms so early that the flowers are never damaged by frost. The habit of Clara Curtis is spreading. A two-year-old plant grows about 18 to 24 inches across. Last but not least, it is not only perfectly hardy anywhere and not particular as to soil or location, but laughs at hot, dry weather and just keeps on "flowering its head off." Each, 60c; 3 for \$1.50; doz., \$4.50.

Hardy Asters

Chrysanthemum, Clara Curtis

Eighteen Single 'Mums: Three of a variety, each plant labeled, for \$4.00

Ten New Garden Chrysanthemums They are the Finest of the New Introductions

Ember. In color, a brilliant glowing bronze that stands out conspicuously in comparison with any others in this color. It is, in fact, a combination of coral and orange shades that cannot be described accurately, ever changing with the light, but always compelling. Each, 25c; doz., \$2.50.

Algonquin. Showy clear yellow, double flowers 2½ inches across. Dwarf, spreading habit. Height 1½ feet. In full flower September 10. Each, 30c; doz., \$3.50.

Symphony. Mauve-rose overcast soft coppery rose, with the sheen of a damask silk. The flower in maturing acquires silvery lilac and faint copper tones, very lovely but elusive and impossible to describe with accuracy. The flowers are large, 3 inches across, double, nicely formed, and carried on heavy, sturdy stems, several to a spray or cluster. Free-flowering. Height 2½ to 3 feet. Each, 35c doz., \$3.50.

Burgundy. Rich cerise-crimson, acquiring deeper amaranth tones in the center, describes the flowers of this lovely double, sweet-scented Chrysanthemum. The fine clusters of bloom are on heavy stems. Height 2½ feet. In full flower October 5th. Each, 50c; doz., \$5.00.

Lavender Lady. This fragrant flower brings true lavender to the garden Chrysanthemums. No trace of mauve, pink or magenta appears under any light conditions. The silvery lavender flowers are 3 inches or more across and appear in perfect branching sprays. Unusually hardy. Height 2½ feet. In full flower October 8th. Each, 50c; doz., \$5.00.

Early Bronze (Edmund F. Black). A remarkably early flowering pompon in full glory in September. Splendid for garden or cutting. Usually free blooming. Its rich and sparkling bronzy tints have made this variety an unusual favorite. Each, 25c; doz., \$2.50.

Pale Moon. Delightful, fluffy, sulphur-yellow blossoms completely cover the plant. Loosely double flowers, 2½ inches across, of excellent keeping quality. The aroma is that of butternuts. Height 2 feet. In full flower October 5th. Each, 50c; doz., \$5.00.

Pygmy Gold. A distinct dwarf Korean pompon type producing quantities of miniature blossoms slightly over 1 inch across. The color is a clear golden yellow remarkable for its brilliance and intensity. Commencing to flower in early September, it is easily the most colorful early Chrysanthemum. Each, 35c; doz., \$3.50.

Pink Lustre. A fine single flower, 3 to 3½ inches across, with several rays of petals and good substance. It is a delightful shade of orchid (Laelia-pink), quite distinct among all other pink kinds. Remarkably free, it produces strong branching sprays in profusion throughout October. A sturdy-growing variety, so hardy it will prove invaluable for difficult garden conditions. In full flower in late September. Height 2½ to 3 feet. Each, 35c; doz., \$3.50.

Romany. A lovely flower that truly defies accurate description. Fairly glowing in the subdued autumn sunshine. Glowing carmine-red, with fine bronze-red tones. Large, full double flowers of nice form are produced freely. A fine garden and cut-flower variety. Height 2½ feet. Each, 35c; doz., \$3.50.

Rose Collection

This assortment of Everblooming Roses consists of strong growing, free flowering kinds. They represent the newest and best among the introductions of recent years. If you are starting a Rose garden, we urge that this collection be given your consideration. (We send only 1-year, No. 1 select grade plants.)
